Subject: Microsoft Settlement

To whom it may concern,

I just wish it express my concern about the proposed Microsoft settlement in that it fails to address any of the licensing agreement terms that Microsoft uses to prohibit the use of open source applications on Windows. As a student computer science, I have gained a countless amount of invaluable experience through the use of and examination of numerous open source applications. Its a shame that I can't gain this experience on a computer that uses a Microsoft OS.

Sincerely,

Robert Bruggner
